My pleasure – thank you for saying so.

Hope you're both doing great.
C.

Chris – I wanted to send you a quick email to say thank you for providing this information yesterday on the uranium projects we have reviewed. I was able to cross-check it with our database and provide a summary to Sandy for Doug – your list made it a lot easier, and helped me feel more confident in the information the NEPA program put forward. I appreciate your help!

Thanks,

Jennifer

Subject: uranium

Colorado:
Uranium Leasing Programmatic EIS, DOE (also covers areas in Utah)

South Dakota:
Dewey Burdock ISR, NRC EIS

Utah:
Daneros mine – underground, BLM EA
La Sal Mines Complex, Forest Service EA – Denison Mining (La Sal, Pandora, Beaver Shaft, Snowball)

Wyoming:
Gas Hills ISR, BLM EIS

Kendrick Expansion ISR, NRC EIS (adjacent to Ross)

Lost Creek ISR, BLM EIS

Lower Gas Hills Conventional Uranium Mine – open pit mine and heap leach, BLM EIS

Reno Creek ISR, NRC EIS

Ross ISR, NRC EIS

Sheep Mountain mine, BLM EIS (underground workings and Congo pit)

In addition to these there are some that predate me – such as the programmatic for ISR facilities, I think there is Nichols Ranch and I'm trying to remember where Barber comes into play – past or future.

Let me know if this is helpful at all.

Best,

Chris
